

Campus Pro

Enterprise-Wide Administrative Control

Campus Pro claims 'Top Performer' in administrative systems for private career colleges, academies and trade institutions. Its core feature is a ruggedly stable generic infrastructure that allows customization to your administrative hierarchy as well as your range of applications. This best-of-breed integrated, synchronized and secure information management system lets you navigate seamlessly across all registrar activities, student record keeping, accounting, regulatory compliance and importantly, cash flow projections.

**“ There is simply
no product
in the marketplace today
that is better suited
to the college environment
than Campus Pro. ”**

CampusPRO

Hands-On Management Power

Campus Pro's numerous competitive advantages are based on intensive research into multiple information management requirements across the private educational sector. Pharand Consulting Group, an innovative developer of web-based technology, also brings insights into real-time snags and failures encountered by users of popular brands of piecemeal administrative software.

The benefit of this rigorous approach is a robust framework that offers superior integration and unrivalled dependability, accuracy and economy across all fields of your platform. Yet it is highly customizable as your administration evolves. Its intuitive interface and advanced reporting capabilities bring informed decision-making right to management's desktop, with service and consultation quickly available from the Webmaster.

Campus Pro's accuracy and economy are field-proven, with zero data lost in transfer and zero downtime at all. Discover its operational sophistication in live demonstration format, or enter your own data in a real world tutorial. Compared for capabilities, accuracy, speed or any other parameter, Campus Pro is sure to impress you.

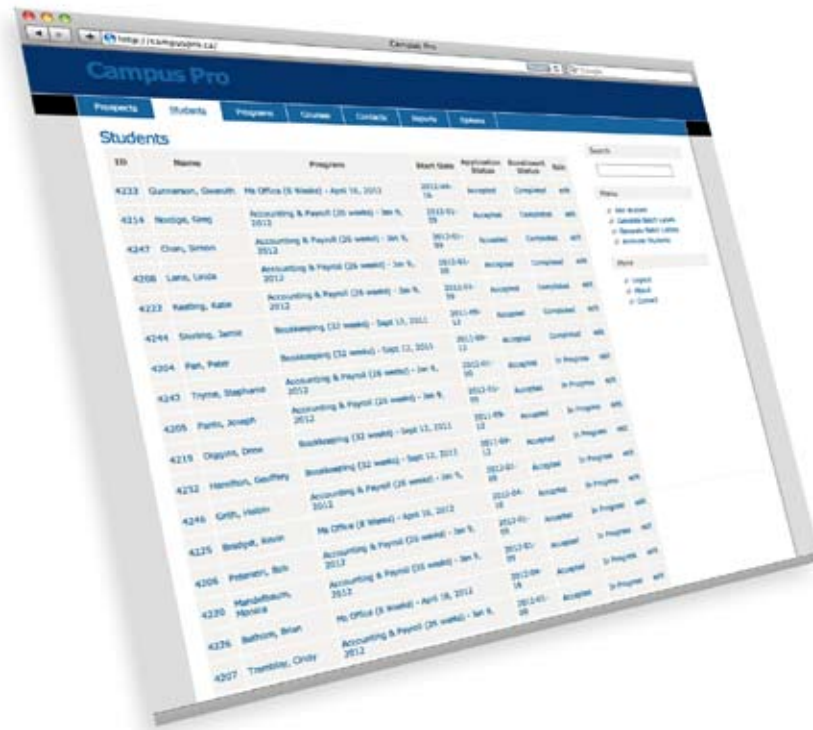

Our programs and courses sections allows you to create and manage the details of each of your programs.

Designed for Customization

In design and features, Campus Pro makes migration from your legacy system a smooth transition. Pharand Consulting Group works hand-in-hand to adapt Campus Pro precisely to your internal structure. Any procedure – recruitment, applications and admission, course enrolment, grades and transcripts, invoicing and tracking financials daily – can be written or fine-tuned either from company headquarters or on-site with your administrative staff.

Campus Pro is scalable, allowing the system to expand as your school grows. Another important innovation gives users the ability to establish security protocol for confidentiality at any level in your organization and ensure compliance with privacy laws. Plans are to add modules for a continuously superior portfolio, and to ensure that customers gain productivity advantages and improved cost effectiveness. In cost-savings terms, licensing and fee structures stand significantly below market averages.

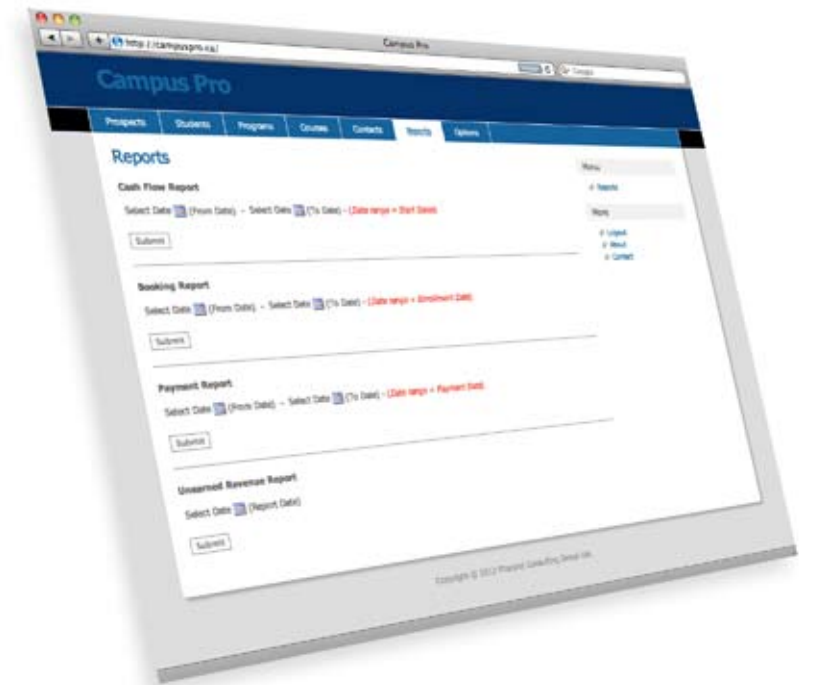

Campus Pro allows you to manage your student files including Student contact information, Emergency contact information, Student loan or payment information, and Student photograph to be used for ID cards.

Support Over the Long Term

Campus Pro deploys expertise that delivers the solutions customers' expect, as promised. That goes for implementation, training and support, as it does for responsiveness, updating and complying with PCCA accounting and all government regulations, even upon short notice. Customer service is readily available to alter reporting fields and refine summaries with true accuracy as your needs evolve.

Weather you manage multiple campuses, thousands of records, and multi-million dollar revenues. You can plan on Campus Pro keeping your profitably on track for years into the future, without the necessity, inconvenience or cost of switching administrative systems again.

Our financial reporting allows you to keep a pulse on cash flow, payment plans/records as well as pre-paid unearned revenue.

Introducing the one simple tool that will help organize your administrative records.
